SUMMARY

Mern Stack Developer leveraging over 5 years of customer service, problem-solving and critical thinking background to build a more intuitive user experience on the web. Currently working on a certificate as a Full stack Web Developer from the University of Toronto Bootcamp, with newly developed skills in JavaScript, CSS, React.js, and responsive web design. With each project, the aim is to best engage the audience for an impactful user experience. With applied aspects of UX and agile development in a recent project, along with a team of three a single-page app was developed that helps users keep track of stocks they are interested in, and stay up to date with the latest financial news.
